Welcome to our 46th Annual Spring Bull Roundup!

Dear Friends and Valued Customers,

It is with great pleasure and excitement that we welcome you to our 46th Annual Spring Bull Roundup. For over five decades, our mission has remained the same: to offer you top-quality bulls, heifers, and quarter horses that will enhance your herd, improve your bottom line, and ensure your success for years to come. At Harrell Ranch, we know the foundation of any successful partnership is built on trust, communication, and a shared commitment to excellence and we are proud to continue that tradition with you, our loyal customers.

Our focus this year, as in years past, is on offering Hereford and Angus genetics with the right balance of traits to help you succeed. These genetics are designed to thrive in a wide variety of environments and meet the diverse needs of your operation. Whether you're seeking to improve growth, calving ease, or carcass traits, our genetics are built to excel. But we also know that maternal traits are equally vital for long-term success. A superior cowherd is the backbone of any great cattle operation, and we take pride in offering cattle that will improve the reproductive performance, fertility, and longevity of your cowherd, all while maintaining outstanding maternal traits like udder quality, feet, structure and overall do-ability.

We also understand the importance of carcass traits in today's market. The beef industry continues to place an emphasis on high-quality, well-marbled beef, and our cattle are bred with this in mind. They are developed for both maternal and carcass traits that will give you confidence when it comes time to market your calves, whether for the local sale yard, backgrounding feedlot, or for premium beef programs. We work closely with industry-leading marketing programs that can assist you in getting your cattle into the right markets, ensuring you receive the best possible return on your investment.

But beyond the genetics, we're in the business of building lasting relationships. Our commitment to you goes far beyond sale day. We are here to help you select the right cattle for your operation, and we're ready to assist with management practices or marketing programs to ensure that you're getting the most out of your investment. At Harrell Ranch, we don't just want to be your seedstock producer, we want to be your partner in success.

Thank you for your continued trust and support. We look forward to seeing you at this year's Spring Bull Roundup, we are here to help you choose the genetics to drive your operation to new heights. If you have any questions prior to the sale or would like to discuss specific individuals in more detail, please don't hesitate to give us a call. As always, we're here to help.

Warmest regards, The Harrell-Mackenzie Families

This filly has a presence about her that lets you know she is special! Her rich sorrel coat and striking blonde highlights set her apart from the crowd! Dixie is a sweet filly who looks forward to her work on a cow and puts forth a big stop to finish it off. She is a smooth ride with a sure foot making her confident in her stature. We value her willing and eager to please demeanor at all times as one of her most cherished traits. Leading NCHA/NRCHA sire Grays Starlight (PE \$13 million) and NFR sire Irish Pay (PE \$750K) combine with Mackenzie influential mare PC Driftin Boon for a deep, powerful pedigree. From one of our oldest, most treasured broodmare lines...don't miss this rare opportunity to own an own daughter by the esteemed Sun Frost (AQHA Hall of Fame inductee) out of the Mackenzie Ranch's elite broodmare PC Driftin Boon. Maternal grandsire Boon Dox John was a great broodmare sire and produced multiple PRCA Dodge Nat'l Circuit Finals barrel and roping event champions! This beautiful mare consistently produces foals resembling her well-balanced strong conformation, ample bone and good withers. She sustained an injury to her left front foot when she was a yearling but maintains just fine, and runs with the rest of the broodmare band at home. We consider her an easy pasture breeder. She has had a foal for the last eight years in a row and is safe in foal to Pay The Sixes for 2025.
