Welcome to our 32nd Annual Spring Bull Roundup!

We are proud to present this offering of Hereford cattle and Quarter Horses that bears our brands as a trademark of performance, quality and proven genetics.

What a time to be in the cattle business! Cattle markets are the best they have ever been and everyone is optimistic about the future. Now is the time to position ourselves for the future by investing in superior genetics. We feel this year's offering is exactly where we need to be for progressive producers who are concerned with their bottom line.

Maximizing heterosis in your commercial cowherd with Hereford bulls is one of the most economically beneficial decisions you can make this year. Developing and maintaining a crossbreeding system that captures maternal heterosis is critical to long-term profitability in the cow-calf business.

In addition to fertility and longevity, there is tremendous savings in feeding and breeding efficient, docile Hereford and Hereford cross cattle. Data continues to support crossbreeding through the well-documented Harris Ranch and Circle A projects. The recent Circle A Angus Ranch study showed Hereford bulls on Angus-based cows increased profitability, cash flow, herd size and retained female fertility and longevity. Further economic analysis documented a \$514 net advantage per cow over 10 years or \$51 more per cow per year!

Please join the Harrell, Thomas, and Mackenzie families for our big, three-day Western Ranchers Event. It begins Sunday, March 6, with our Harrell-Mackenzie Quarter Horse preview at Mackenzie Ranch headquarters, our annual Spring Bull Roundup at Harrell Hereford Ranch on Monday, March 7, and concludes Tuesday, March 8, with the Thomas Angus Ranch Spring Bull Sale.

We extend a special invitation for "The Cowboy Gathering," Monday evening at 6 pm, following our sale, at the Geiser Grand Hotel. Join us for western fellowship with fellow cattlemen and industry leaders hosted by Harrell Hereford Ranch, Thomas Angus Ranch and Pfizer Animal Health.

Plan on three big days of good cattle, good horses and great western hospitality. Please call with questions ...we'll look forward to seeing you sale day!

IRONSIDE ASSOCIATES, Ironside, OR... A NORTHWEST PREMIUM GENETIC PARTNER

Jeff and Edie Palmer, mgrs.

"We have used Thomas Angus and Harrell Hereford bulls over the years ...and retain our calves through harvest, so it was only natural to participate in the Genetic Partnership Program. 65% of our bull battery is Thomas and Harrell bulls with their genetics forming the core of our cowherd. As that percentage increased, so has our overall performance from calf crop percent to grid performance. All information gathered has been a great tool for making performance comparisons and to justify our investment and choice of genetics."

Thomas Angus and Harrell Herefords have been a major influence in the success of our cattle performance."

From cowherd to carcass and marketing the end product, the NWPG Partnership with Harrell Herefords, Thomas Angus and Beef Northwest pays dividends!

HARRELL HEREFORD RANCH RETAINS A FULL 1/4 SEMEN INTEREST IN EVERY SALE BULL...

Buyer will take full possession and retain full salvage value in the bull. Bulls collected for A.I. use will be done in the off season at the buyer's convenience with expense paid by Harrell Hereford Ranch. Call Bob Harrell 541/523-4322 for more information.

All registered sale cattle are tested PI-BVD negative, IE and Diluter Free.

H5 CARCASS RANKING SYSTEM

American Hereford Association Carcass EPDs are based upon several thousand ultrasound measurements. The **H5 Carcass EPD Ranking System** simplifies evaluation for Backfat, Ribeye Area and Intramuscular Fat (marbling) traits.

Breed Percentile		Backfat	Ribeye	MARB
★★★★	Top Value	-.120	1.05	.87
★★★	25%	-.010	.33	.09
★★	50%	.001	.22	.03
	75%	.013	.11	-.03
★	Low Value	.141	-.83	-.42

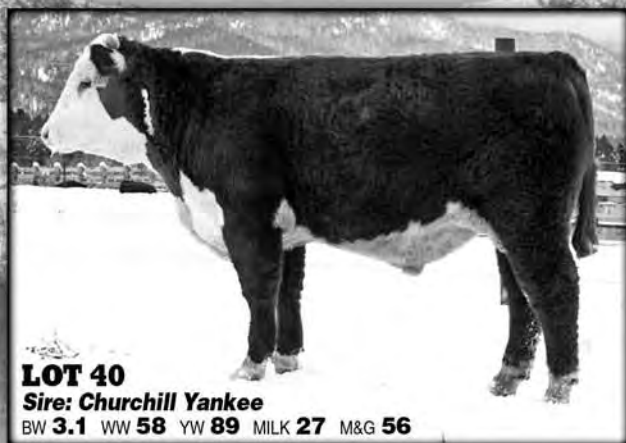

★★★★ **Breed Leader ...top 25%**
Great genetic improvement.

★★★ **Excellent ...second 25%**
Good genetic improvement.

★★ **Good ...third 25%**
Average for all ultrasound Hereford cattle which represents the upper portion of the breed. Modest genetic improvement.

★ **Acceptable**
Herefords that still rank above average of the U.S. beef cattle population for carcass value.

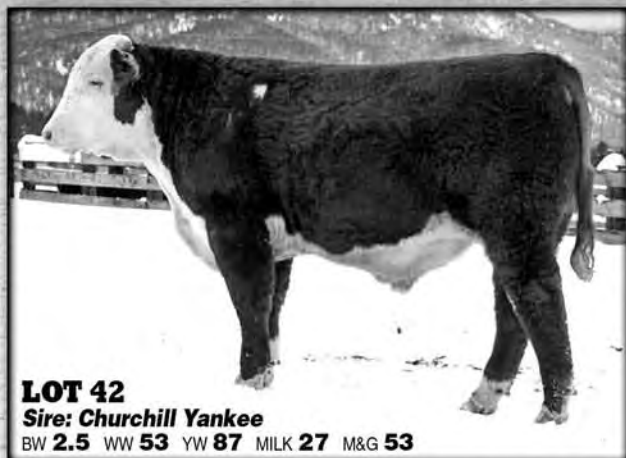

Look to high accuracy sire progeny groups using Carcass EPDs and our Ranking System as a selection tool. Place priority on traits that will impact the economics of your program.

Linebred to the legendary Two Eyed Jack, this Billy Red Baron daughter's maternal line features Watch Be Red, full sister to Bob Harrell's #1 heel horse "Baron". We've retained three mare band fillies out of dam Watch Hartona Red and Buffy's full sister was a 2006 top seller. Stout and good footed with a powerful hip and hind leg, this filly possesses the quality, conformation, kind disposition and smarts to excel on the ranch, in the arena and in your broodmare band.
