Welcome to our 45th Annual Spring Bull Roundup!

We invite you to our 45th Annual Production Sale and welcome you to stop by and visit any time prior to Sale Day to evaluate the offering and the cowherd behind it.

From cow herd to carcass... we test them all the way. This has been our breeding philosophy... to produce cattle that work for all segments of the beef industry.

Commercial ranchers have multiple options from which to source their breeding stock. We take pride in our Harrell Ranch program based upon 50 years of experience in the beef industry and an uncompromised commitment as a seedstock breeder to produce sound, predictable genetics for the cattlemen we serve. We focus upon staying true to an industry that rewards dedication and hard work; we have not chased fads nor changed directions; and continue our efforts to improve our customer's bottom line.

With the tools available to today's cattleman, genetic advancement is moving at lightning speed. With our program's progress in performance, and with our push for a combination of maternal and grid value, we are obtaining elite levels of performance within the breed backed by a power cow herd, and we just keep raising the bar. Birth weight and balanced EPDs, udders, potential carcass premiums... our effort to breed the "total package" is never done. For generations, we have subjected our cattle to an intense "total evaluation" that has produced a built-in predictable advantage. We take pride in delivering a genetics and performance focused program that serves registered breeders and commercial cowmen.

In our ongoing commitment to customer service, we have expanded marketing opportunities for Harrell Ranch Hereford & Angus customers. We are members of a new packing plant venture called True West Beef in Jerome, Idaho. In our now 2nd year of operation, we have met our goal of 500 head/day capacity and are already expanding towards an 850 head/day kill. The data that we have received back so far has been invaluable and our Harrell genetics are performing as expected. This venture has opened the door to exciting new marketing opportunities for our customers and ourselves. Let's visit more about these opportunities in the future and see how this might fit into your marketing plans. No matter if your cattle are sold in the sale barn, video auction, directly off the ranch, or on the grid, we hope that Harrell Ranch influenced genetics, and our efforts to connect you to buyers, will put more dollars in your pockets.

Please join us for our "Ranchers' Weekend" in Baker City to check out this elite offering of Hereford, Angus, and Quarter Horses that have made it to the finish line for your program!

Your friends, Bob Harrell Jr. and the Harrell & Mackenzie Families

Loaded with style, class and athletic ability, this stunning filly is hard not to fall in love with! "Delta" is very gentle and personable; the type anyone will be able to ride. She moves out with finesse and elegance but also melts into the ground with a nice big stop. Trainer Paul Elsner says she always approaches her job with a level head and a positive attitude. She represents a new generation of franchise maternal genetics that is anchored by landmark granddam PC Driftin Boon, Mackenzie's highest-dollar-producing broodmare, resulting in a filly that lives up to our expectations.
